

CASE STUDY

Gaston County Schools, North Carolina

*"The organizational nature of Crate, with a district as large as ours, was absolutely the game-changer for us! We had **ZERO findings** at our last audit!"*

Dr. Andrea Meyer, Federal Programs Compliance Coordinator

District Snapshot:

Gaston County Schools, North Carolina

Dr. Andrea Meyer, Federal Programs Compliance Coordinator
(Federal Programs/Title I)

806 Software: Title1Crate

56 Schools

27 Title I Schools

The Challenge:

- Compliance
 - Disorganization
 - Inefficiency
- Gaston schools relied on shared Google folders to manage documentation. However, there was little structure or consistency, few clear guidelines, and reviewing multiple layers of folders quickly became a time-consuming and frustrating process.

The Turning Point:

Title1Crate brought structure and simplicity to Gaston County Schools' documentation process, creating an organized and efficient system for managing required evidence. The platform made it easier for staff to upload, store, and review files, saving time and reducing frustration.

Gaston County Schools attribute much of their success to 806 Technologies' exceptional support. The Tune-Up Tuesday sessions provide practical, interactive guidance, while the live chat team remains consistently quick, professional, and helpful. Their responsiveness and expertise have made a lasting impact on the district's experience with Title1Crate.

The Outcome:

ZERO Audit Findings

Streamlined Efficiency

Peace of mind during audits

Compliance Confidence

Saved Time

Be audit-ready, all year long.
